

CEO Message: COVID-19 and Moving Forward

I hope this communication finds you, your family and friends safe and healthy during these unprecedented times. I don't think anyone has a playbook for what we're dealing with or the best way to recover and move forward.

That said, FCA will continue working with our team to provide our members with the best information and resources needed to navigate through these difficult times. We will also continue leveraging our community's national influence on regulatory and legislative issues impacting our industry today (COVID-19 paid leave, stimulus, etc.) and moving forward (COVID-19 long-term impact on infrastructure, unemployment, etc.).

While we continue to make our efforts on COVID-19 our priority, I believe it's time to bring back some of FCA's regular information and resources, so we can move towards our post COVID-19 industry. You will see communications and activities from FCA over the coming weeks to help our industry navigate back to a healthy and prosperous environment.

We do not know when this pandemic and its effects will be completely behind us, but *we do know* that this too shall pass. Brighter skies will prevail. FCA will continue our part in the efforts to put this invisible enemy behind us, and we encourage all to do the same.

Through our united community of signatory contractors, we will make it through these times together. As always, please do not hesitate to reach out should you need anything.

Stay safe,

Anthony Darkangelo
CEO
FCA International
